Palmer – sorry, there was a bit of a miscommunication and a missed cc. Here are comments from the members of the groups Kathy submitted the document to.

Yes this is internal at this point. It has not yet been shared with the Corps.

Thanks and Will do. Palmer I will share this with our workgroup, I will ask that they send Brittany comments by COB today so she can collate them by your deadline. I will also request that they not share it as my understanding is this an internal EPA proposal (ie Corps has not seen it) at this time correct?

We may have later comments as I'm not sure who is in the office today, but appreciate the opportunity to review.

Thanks again, Kathy

Mike/Kathy/Heidi

Can you take a quick look at these proposed revisions to the MitRule to facilitate assumption that our workgroup (includes reps from R5 and R2) has selected and let us know if you have any concerns?

The document is very short, less than a page.

We would greatly appreciate your input by 10 AM Tuesday if possible.

Feel free to share with anyone else on your team who is working on this topic.

Thanks, Palmer
